

# BILSTEIN B4 DampMatic®.

Driving comfort, just like  
on the very first day.

# Original equipment quality for Mercedes-Benz models: The BILSTEIN B4 DampMatic®.

You're on a clear, open road enjoying a high level of ride comfort. The very next second, you have to react quickly and precisely to avoid an obstacle. Your vehicle responds swiftly and is safely stabilised. This is the driving comfort you have come to expect from Mercedes-Benz and the reliability you should continue to enjoy. Thanks to the BILSTEIN B4 DampMatic®, the intelligent, amplitude-dependent damping system from BILSTEIN that is factory-fitted as standard in all 1st- and 2nd-generation Mercedes-Benz A-Class and B-Class models, you can.

In the Mercedes-Benz C-Class (BR 204), Agility Control (a SACHS product licensed by BILSTEIN) / DampMatic® also delivers convincing driving comfort.

And if you should ever find yourself looking for series replacement parts in the independent automotive aftermarket, remember that only genuine BILSTEIN B4 DampMatic® parts can guarantee that you retain the full functionality of Mercedes-Benz Agility Control.

# The original driving comfort.

## Keeping you and your car safe.

- Improved ride comfort and optimum stability
- Amplitude-dependent damping system: lower damping force for small bumps; greater damping force for large obstacles, in bends and during evasive manoeuvring
- Original equipment quality 'Made in Germany' from the inventors of mono-tube gas pressure technology
- For all vehicles that are factory fitted with DampMatic® as standard
